

Parker SensoControl Measuring devices for hydraulics

ServiceJunior with Datalogger

The ServiceJunior allows you to measure, display and store pressures in one device. Its extremely robust metal housing design and easy operation make it stand out from the competition. Pressure spikes are recorded thanks to a 10-millisecond update rate.

Part number	Description	Campaign price DKK
379691	ServiceJunior kit 100 bar	3427,00
379694	ServiceJunior kit 400 bar	3427,00
379693	ServiceJunior kit 600 bar	3427,00

Serviceman Plus

Parker Serviceman Plus is a mobile, extremely robust, and easy-to-use measuring device that can handle many types of measurements in mobile and stationary hydraulic systems. With automatic sensor recognition, you can easily connect pressure, temperature, flow, or speed sensors and start measuring immediately.

Part number	Description	Campaign price DKK
379681	Serviceman Plus kit analogue excl. pressure sensor	5923,00
379682	Serviceman Plus kit CAN excl. pressure sensor	5923,00

Pressure Sensors

All pressure sensors are delivered with a diagnosis adapter (M16x2) installed. Fast and safe connection to the hydraulic system is ensured. Installation times are reduced. Choose between analogue or CAN.

Part number	Description	Campaign price DKK
379401	Pressure sensor analogue, measuring range -1-15 bar	1489,00
379402	Pressure sensor analogue, measuring range 0-60 bar	1489,00
379403	Pressure sensor analogue, measuring range 0-150 bar	1489,00
3794004	Pressure sensor analogue, measuring range 0-400 bar	1489,00
1009592	Pressure sensor analogue, measuring range 0-600 bar	1489,00

Part number	Description	Campaign price DKK
379409	Pressure sensor CAN, measuring range -1-16 bar	1489,00
379405	Pressure sensor CAN, measuring range 0-60 bar	1489,00
379406	Pressure sensor CAN, measuring range 0-160 bar	1489,00
379407	Pressure sensor CAN, measuring range 0-400 bar	1489,00
379408	Pressure sensor CAN, measuring range 0-600 bar	1489,00
